DETAILS CONCERNING THE OBJECT OF A CONTRACT:

CPV CODE: 73100000-3 – Research and experimental development services

Concerning the project: "*Transform RNA - mRNA Therapeutics generation platform.*", which is conducted by Celon Pharma S.A. (hereinafter "the Project"), we hereby request quotation for:

Conducting the following subcontracted general toxicology and analytical support studies program necessary to complete the Project:

The selected Contractor will be responsible for the planning, execution, and reporting of the following nonclinical studies and supporting activities:

1. General Toxicology

- Conduct Maximum Tolerated Dose/Dose Range-Finding and Repeat-Dose Toxicity studies in two species (rodent- Sprague-Dawley Rat and non-rodent- Cynomolgus Monkey),
- Test item to be administered via intravenous infusion (1-hour duration),
- The studies must include full clinical observations, body weight and food consumption monitoring, clinical pathology, and comprehensive histopathology,

2. Safety Pharmacology

- Assessment of cardiovascular safety in Cynomolgus Monkey,
- If necessary – assessment of hERG potassium channel activity or Functional Observation Battery (FOB),

3. Genetic Toxicology

The following standard set of genotoxicity tests is required:

- In vivo bone marrow micronucleus test in the Wistar Han rat,
- In vitro chromosomal aberration assay using Chinese Hamster Ovary (CHO) cells,
- In vitro bacterial reverse mutation test (Ames test),

All studies must be performed in compliance with relevant **OECD** guidelines and **GLP** requirements.

4. Formulation Analysis

- Development, pre-validation, and full validation of an analytical method for the quantification of the test item (TI) in dose formulations.

5. Bioanalytical Method Development and Sample Analysis

- Development, validation, and application of a bioanalytical method suitable for the quantification of the test item in biological matrices (e.g., **LC/MS**, **qPCR** and **ELISA**) in both rodent and non-rodent species.

6. Immunogenicity Assessment (Anti-Drug Antibodies)

- Development and validation of an assay for the detection of antidrug antibodies (ADA) in rodents and non-rodents.
- The contractor must provide and characterize a positive reference control.

Additional Information:

- The Purchaser declares readiness to commence the research program set forth herein starting from **October 2025**.
- The planned study program will be conducted in accordance with both **Good Laboratory Practice (GLP)** applies to all of the above studies except MTD/DRF and **non-GLP standards** applies to only MTD/DRF studies.
- The program will also follow the **European Medicines Agency (EMA)** scientific guidelines on non-clinical testing of medicinal products.
- English shall be the language for all communication, documentation, and reporting.
- The detailed scope of work is provided in **Attachment No. 2 to this RfQ** and will be shared with the Bidder upon signing a Mutual Confidentiality or Non-Disclosure Agreement (**NDA**) with the Purchaser.
- All studies must be conducted in accordance with current scientific standards. Studies and supporting activities shall comply with applicable **ICH, EMA, FDA, and OECD** guidelines, including but not limited to: **ICH M3(R2), ICH S6(R1), ICH S6(R1), ICH S7A/s7B** and other relevant documents. Where **GLP** compliance is required, studies must meet **EMA and FDA GLP standards**. A valid GLP certificate for the Bidder's facilities and laboratories must be provided. The Bidder must ensure ethical treatment of laboratory animals in line with animal welfare standards. A valid **AAALAC** accreditation is mandatory.
- All communication and documentation must be in English. Reports must comply with **FDA and EMA** non-clinical testing guidelines and be submitted in eCTD format, as per **ICH M4S(R2)**. The Bidder must deliver the Main Report and the following Subreports: Toxicokinetic, Pathology and Histopathology, Analytical Method Development and Validation (Formulation Analysis – DFA), Bioanalytical Method Development and Validation (BioA), and Anti-Drug Antibodies Assay Development and Validation (ADA). Reports must be delivered in both editable (.doc) and non-editable (.pdf) formats. Relevant raw data (e.g., body weight measurements, BioA raw data for TK analysis) must be delivered in separate files. The Purchaser reserves the right to review and request modifications to draft reports. Typically, two review cycles will be required before finalization

Additional Requirements

1. The Bidder is required to provide the study management services/support including (but not limited to): weekly calls (if needed) and following meeting summaries, timely updated action and decision log, Gantt chart preparation and updating, reports tracking, budget tracking, material and samples shipment coordination, on-site services management. The Bidder will support the Purchaser until the moment of the report finalisation and the programme conclusion. In a case of the Project Management services are already included in the Studies pricings, please include an appropriate information.
1. The Bidder acknowledges the localisation of the Purchaser is Poland (Central Europe), which has to result in an appropriately adapted for a possible time difference organisation for communication.
2. The Bidder declares the possession of suitable infrastructure and resources to conduct the non-clinical studies according to the outlined scope of work (GLP compliant: animal facility, living and experimental rooms, BioA and Analytical laboratories, archives and warehouse, etc.).(att. 3)

POINT SCORING SYSTEM:

The successful bid will be selected based on the following criteria:

No.	CRITERIA	WEIGHT IN %
1.	Price	80
2.	Study initiation date	10
3.	Project management	10

Points scoring systems during selection process will be as follows:

No.	CRITERIA	Points scoring system
1.	Price	Price "P" – 100 points (weight of criterion 50%) Scoring in the price criterion will be as follows: the lowest price for conducting all studies proposed by the Tenderer will be considered as 100 points, which is the maximum number of points. The points will be given based on the formula: $\frac{Price_{lowest}}{Price_{service}} \times 100 \text{ points}$ Where: Price_{lowest} – the lowest price among quotes. Price_{service} – price for the given tenderer. <i>Criterion "P" = number of points x 50% (weight of criterion)</i>
2.	Study initiation date	Study initiation date "T" – 100 points (weight of criterion 10%) 100 points - will be given to the Bidder who will start the study by the October 2025 66 points - will be given to the Bidder who will start the study by the November 2025 33 points - will be given to the Bidder who will start the study by the December 2025 0 points - will be given to the Bidder who will start the study by the January 2026 <i>Criterion "T1" = number of points x 10% (weight of criterion)</i>
3.	Project management	Project management "M" – 100 points (weight of criterion 10%) Weekly meetings and summary - 15 points Journal of activities and decisions - 15 points Preparing and updating the Gantt chart - 10 points
